CALVIN H. ROBINSON, "Father Darkleaf", left, is shown above receiving the WOW Citizenship Award for 1975 from Cecil Deaner, right, Vice President of the local WOW.

Receives WOW Award

At a meeting of the Woodmen of the World in Appomattox on Friday evening of last week Calvin H. Robinson was presented the WOW Citizenship and Community Service Award for 1975. Making the presentation was Cecil Deaner, Vice President of the local WOW.

After presenting Robinson was a beautiful plaque, the following tribute was made to the recipient:

"Surely no man has ever boosted his community, his county, his state, and his country more faithfully and honestly for the past 45 years than Calvin H. Robinson, writer and historian.

Born the only son of a Baptist minister, he graduated from the University of Richmond. After teaching school for a short time, he came to Appomattox in 1931 when he purchased the TIMES-VIRGINIAN, a weekly newspaper established in 1892 from the late A.H. Clements. The TIMES-VIRGINIAN is the oldest continuous business in Appomattox.

Mr. Robinson married the former Earle Patteson in 1932 and they were Co-Publishers of the TIMES-VIRGINIAN until he sold his business and retired September 1, 1962, but continues to write his weekly column, "Father Darkleaf".

For several years he had a weekly radio program, making the 'Country Editor' even more widely known. A charter member of the Appomattox Lions Club and an Associate Member of the Appomattox Jaycees, he also served very capably on the Appomattox Town Council for a number of years.

"Father Darkleaf" was the originator of the idea of paying tribute to Joe Sweeney, a dream he saw come true with the placement of markers near the birth-site and the grave of Joe Sweeney.

We, the members of the Woodmen of the World, Appomattox County, pay tribute to Calvin H. Robinson, the recipient of this Citizenship and Community Service Award for 1975."

A social hour with ham biscuits and homemade ice cream was enjoyed by all attending.

To Celebrate 200th Anniversary

LIBERTY CHAPEL BAPTIST CHURCH
1775 - 1975
Rev. James N. Williams, Pastor

In 1775 a band of believers met and organized a Baptist Church, later named Liberty Chapel Baptist Church. On August 17, 1975 Liberty Chapel Baptist Church will celebrate its 200th anniversary.

Morning worship will begin at 10:30 a.m. with special music being rendered. The message will be brought by the Rev. Billy Washburn, a former pastor. There will be a short period of remembering the past and looking toward the future.

Immediately following the morning service, members and guests will enjoy an old fashioned "dinner on the grounds" and fellowship.

In the afternoon there will be singing led by John Hall, accompanied by Mrs. Belle Reynolds, organist, and Mrs. Betty Leftwich, pianist. Special music will be provided by Mrs. Margie Musselman and the Rocks Quartet.

Revival services at Liberty Chapel Baptist Church will begin at 7:30 in the evening on this same date with Rev. James N. Williams, church pastor, speaking. These services will continue throughout the week and there will be special music each evening.

The public is invited to come out and help celebrate the 200th Anniversary of Liberty Chapel.

County Schools Will Receive Title VI-B Project Grant

The Appomattox County Public Schools have again been selected to be the recipient of a Title VI-B Project grant. This federal assistance is funded by the Elementary & Secondary Education Act. This is the fourth year that the county has received these funds. The amount to be received is $17,078. A class for the Advanced Level Trainable Mentally Retarded will be initiated at the Appomattox County High School. The project covers the salaries of a teacher and teacher aide, as well as the purchase of materials and equipment, and the services of a school psychologist, who will provide diagnostic and consultative services to the program.

A class for the Primary Level TMR students was begun at the Appomattox Primary School for the 1974-75 session. This class was also, funded through the approval of a Title VI-B project application. Both of these classes are self contained. Trainable Mentally Retarded students are severely handicapped and their potential and intellectual abilities are below those of the educable, but they may be expected to benefit from training in a group situation. The basic objectives of an educational program for these non-academic children emphasize training for self-care and social adjustment for living in a protective environment.

Classes for the Educable Mentally Retarded are provided for students in grades 1-12. Students in this classification can profit from educational experiences in keeping with their capacities for learning.

The Old Merchant Mill To Be Torn Down

The Old Merchant Mill, built by L. E. and William E. Smith in approximately 1906, is slowly being town down since the wooden building poses a dangerous fire hazard to enjoining property. Located by the railroad tracks off South Church Street, the merchant mill was purchased last year by C. Lewis McDearmon from Southern Air,Inc. of Lynchburg, who had used the building for storage of duct work.

While the mill has been owned by several individuals and companies, the most notable operators of the mill were J. M. and Virginia A. Rosser. The Rossers purchased the mill in 1923 and continued to operate the business as a merchant mill until July 2, 1944, when they sold it to David and Mary Cawthorne.

The mill has been destroyed by fire twice - in 1936 by lightning and in 1938 when an engine caught fire. In both instances, the mill was completely restored by the Rossers.

McDearmon plans to erect a metal storage building for Appomattox Oil Company at the mill site when the leveling process is completed.

Let The Phone Ring!

If you are in need of the services of the Appomattox County Rescue Squad the telephone number you dial is 352-5425. That is the number of TRANSCO, who graciously dispatches all rescue calls for the local squad.

As a rule, workers at Transco may be busy and not near the telephone, so, please let it ring . . . at least ten times before you hang up. It will be quicker in the long run and will give the employees at TRANSCO time to get from one end of the compressor building to the other where the phone is located. Don't hang up, if it is an emergency you will save time by waiting for someone to answer!
